

Tesla Model 3 Delivery Checklist

BASICS

- Make sure VIN matches paperwork
- Correct color & options, ask your Delivery Specialist to double check
- 'Tesla' license plate frame & Front license plate mount
- Universal Mobile Connector (UMC) cable with the 3 included standard adapters (**NEMA 5-15, 14-50, J1772**), and the carry bag w/velcro
- Latest software version installed
- Owner's manual in the glovebox
- All accessories (tow hook, microfiber cloth, HUD), and any extras you opted for
- If you waited outside a Store for your reservation, make sure you get your diecast copy of the car (color won't match)
- Make sure you can put the car in Park (and that it stays parked)

EXTERIOR

PAINT

- Surfaces (and underside) are free of scuffs, marks, abrasions, or smudges
- Paint is not scratched or "folded"

PANELS

- All panels are aligned & flush, no huge gaps or misalignments (crooked hood)
 - Frunk gap/sag, makes sure its no more than 4mm
 - Front and rear lights are flush with hood/trunk/panels
 - Glass roof panels are aligned and show no sign of potential leaks
- Front/Rear lights are free of condensation
- Tow hook eye comes off easily (**ask for demonstration, don't break it**)
- Wheels & Underside free of scrapes from truck unloading/loading

Tesla Model 3 Delivery Checklist

- Doors, hood, trunk all open properly
- Doors and trunk/frunk close with a normal amount of force, i.e. no slamming required
- Accessories under frunk mat are present

TECHNICAL

- All 4 valve stem covers on tires
- Both key cards work on the B-pillar
- Phone bluetooth connectivity as primary key works
- All phone app functions work (unlocking, preconditioning, etc)
- All front & rear lights work (emergency, turn signals, brakes, hi-beams/fog, up/down adjustment from touch screen)
- Side mirrors make minimal noise when shifting from state to state
- Charge port door sits flush and moves freely, opens consistently
- Each of the Mobile Connector adapters charge, latch and unlatch without problems
- Make sure both AC and DC plugs work **(test at a supercharger on-site)**

INTERIOR

MATERIALS

- Surfaces (and underside) are free of scuffs, marks, abrasions, or smudges
- Check the windshield and windows for ripples in the glass
- Interior liner is properly sealed & not “hanging”
- Paint in the door and body gap
- All floor mats are present
- Seat tears or smudges
- Seat material is not bunched or folded
- Headliner fingerprints or marks

Tesla Model 3 Delivery Checklist

- Suction cup and order/inventory burn in on dash

TECHNICAL

- All windows go up/down without noise or issues, no black "goop"
- Make sure AC/Heat works at full power without strange noises
- All interior button functionality works, especially dome lights & emergency
- Both front door emergency handles work
- Both front seats don't squeak when moving (check all directions of motion) OR folding (for rear)
- All interior lights present & working (especially footwells, puddle lights, dome, etc)
- Front console has both phone cables
- All 4 USB outlets & 12 volt DC receptacle have power
- Rear backup camera clear & working
- Music streaming & phone streaming work, radio reception is good
- Voice control works
- Microphone picks up good audio (call a friend with the Model 3 dialer)
- All speakers emit sound, no audio "clipping"
 - 2 tweeter speaker on the doors (by the rearview mirrors)
 - 2 mid range speaker above in the front
 - 2 bass speakers on the bottom of the front doors
 - 2 mid speakers on the back doors
 - 2 mid speakers on the top of the trunk subwoofer inside the trunk, right side

Lastly, make sure you ask your DS to take a picture of you and your brand new Model 3, then upload to the appropriate Facebook Group or Subreddit.
